SKILLS

- **Languages:** Python, C, C++, Java, HTML and CSS, JavaScript, Shell Scripting
- **Frameworks & Libraries:** Streamlit, Flask, Scikit-learn, Pandas, NumPy, Transformers, Matplotlib, Chart.js
- **Tools/Platforms:** MySQL, Linux, Google Colab, GitHub, LaTeX, Docker, Proteus, AutoCAD, Cisco Packet Tracer
- **Soft Skills:** Team Collaboration, Problem-Solving, Adaptability, Communication, Project Management

INTERNSHIP

- **Datawise Services Private Limited | [Certificate](#)** Jun 2025 – August 2025
Intern – Industry Research, Data Collection & Data Cleaning
 - Cleaned and organized over **1,000** survey records using structured workflows, improving usability for analysis and reporting.
 - Executed the end-to-end survey lifecycle, including questionnaire design, validation, data collection, and compliance review, reducing data inconsistencies.
 - Managed, cleaned, and organized data records, improving data accessibility and reporting efficiency by approximately **39%**.
 - Collaborated with stakeholders to authenticate findings and deliver clear, actionable insights.

PROJECTS

- **Realtime Groundwater Resource Evaluation | [Live](#)** November 2025
 - Engineered a realtime groundwater monitoring and prediction dashboard using Flask, Isolation Forest anomaly detection, and geospatial visualization, improving risk detection by **30–40%**.
 - Implemented automated email alerts for critical groundwater events using SMTP services, reducing response time for remediation by 24 hours and increasing stakeholder engagement by **35%**.
 - Architected a robust data processing pipeline utilizing NumPy, Pandas, and SQLite, efficiently handling historical datasets of **10,000+ geospatial records** to enable seamless real-time tracking and reporting through Chart.js and Leaflet.js.
- **Artificial Intelligence Mental Health Detection Engine | [Live](#)** November 2025
 - Developed an AI-powered multimodal detection system trained and validated on a dataset of **2,000+** audio and text samples, streamlining the initial evaluation process for rapid screening.
 - Combined NLP and speech-based emotion analysis to detect indicators of emotional distress, improving preliminary diagnostic efficiency by **25-40%**.
 - Integrated NLP frameworks (Transformers, Librosa) with a Flask backend, establishing a full-stack architecture capable of processing complex multimodal inputs with **sub-400ms** latency.
- **Live Digital Traffic Management System | [Live](#)** April 2024
 - Deployed a real-time traffic monitoring system leveraging regression and clustering algorithms to continuously analyze live data streams and predict congestion hotspots.
 - Optimized route recommendation strategies by implementing congestion prediction models, reducing average travel time by **25–30%** and improving route efficiency by **40%**.
 - Constructed an interactive geospatial dashboard using Folium and Gradio, enabling stakeholders to visualize real-time traffic fluctuations and optimize route-planning strategies.

CERTIFICATIONS

- Certified Generative AI Professional | [Oracle](#) August 2025
- Cloud Computing | [NPTEL](#) October 2025
- Certified DevOps Professional | [Oracle](#) October 2025

ACHIEVEMENTS

- Achieved a **5-star** algorithmic proficiency rating on [HackerRank](#), alongside solving **350+** Data Structures and Algorithms (DSA) challenges across [LeetCode](#) and [GeeksforGeeks](#).
- Authored and presented **1** research paper titled “[AI-Integrated Smart Bandage](#)” to an audience of **500+** professionals at an international IEEE conference, successfully securing **1** corresponding patent.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.25 August 2023 - Present
- **Netaji Subhash Vidyaniketan** Agartala, Tripura
Intermediate; Percentage: 71 April 2021 - March 2023
