Mobile: +91-9362118496

SKILLS SUMMARY

• Languages:	C, C++, Java, Python
• Libraries & Frameworks:	NumPy, Pandas, Matplotlib, Scikit-learn, OpenCV, Scikit-image
• Tools/Platforms:	Hugging face, Git, GitHub, Google Colab, Kaggle, Linux
• Backend:	MySQL
• Soft Skills:	Team Collaboration, Adaptability, Communication, Project Management

PROJECTS

Realtime Groundwater Resource Evaluation GITHUB	Oct 2025 - Dec 2025
- Leveraged data analytics and visualization technologies including NumPy, Pandas, SQLite, Chart.js, Leaflet.js, Bootstrap, and SMTP services. - Architected a real-time groundwater monitoring and prediction dashboard using Flask, Isolation Forest anomaly detection, and geospatial visualization, improving risk detection by 30–40%. - Integrated threshold-based risk classification, interactive mapping, historical trend analytics, and automated email alerts for critical groundwater conditions.	

Artificial Intelligence Mental Health Detection Engine GITHUB	Oct 2025 – Nov 2025
- Utilized advanced ML and NLP frameworks including Transformers, Librosa, Scikit-learn, Flask, and full-stack web technologies. - Designed an AI-powered multimodal mental health detection system for early risk screening. - Combined NLP and speech-based emotion analysis to identify emotional distress and early mental health risk signals, improving early identification efficiency by 25–40%.	

Live Digital Traffic Management System GITHUB	Feb 2025 – Apr 2025
- Employed tools including Scikit-learn, Folium, Gradio, Matplotlib, and geospatial data processing frameworks. - Deployed a real-time traffic monitoring system using machine-learning techniques such as regression and clustering. - Optimized route recommendation strategies by implementing congestion prediction models, reducing average travel time by 25–30% and improving route efficiency by 40%.	

INTERNSHIP

Teachnook Certificate	May 2025 – June 2025
<i>Intern- Cyber Security</i> - Analyzed network infrastructures and identified security vulnerabilities, applying CIA triad principles to improve system resilience and reduce attack surface. - Conducted vulnerability assessments and penetration testing using Kali Linux, Wireshark, Nmap, and Burp Suite, aligning findings with OWASP Top 10 risks. - Implemented security controls and incident response measures, including firewall configuration, data encryption, and system hardening across Windows and Linux environments.	

CERTIFICATIONS

• DevOps Professional Oracle	Sep 2025 – Oct 2025
• GenAI Professional Oracle	Aug 2024 – Oct 2025

ACHIEVEMENTS

• Solved 150+ DSA problems on LeetCode , 100+ DSA problems on GeeksforGeeks and got 4 stars in problem solving on HackerRank . KIIT	Since Nov 2024
• Smart India Hackathon Internal round Selection	Sep 2025

EDUCATION

• Kalinga Institute of Industrial Technology Bachelor of Technology - Computer Science and Engineering CGPA: 7.71	Bhubaneswar, India Since Aug 2023
• Belonia Vidyapith H.S. School Intermediate - MPC B Percentage: 70.6%	Belonia, Tripura Jun 2022 – Mar 2023
